10/16/67

Gentlemen,

Enclosed is a bird found on a duck shot on Oct 15, 1967 at the Farmington Bay Bird Refuge just north of Salt Lake City, Utah. I believe it was a Black Duck but this is the first of this variety I have ever shot, & this plus a partial eclipse stage of the plumage made identification a little difficult. It could be a hybrid I suppose. Unfortunately in cleaning the days bag I was in a hurry - forgot to check on the sex.

Sincerely yours

John W. Atkins
