

UTAH BIRD LIST - 2015 (457 bird species with scientific & English names)

Symbols: # Species for which documentation is requested; + Provisional species accepted on sight record(s) only; * Species that are found primarily in Washington County; ^ Spec that are found primarily in northern Utah

Abundance Codes: C = COMMON-- Found consistently in large numbers in appropriate habitat and season; F = FAIRLY COMMON-- Found consistently in moderate numbers in appropriate habitat and season; U = UNCOMMON-- Inconsistently found in small numbers in appropriate habitat and season; R = RARE-- Found infrequently but annually in very small numbers in appropriate habitat and season; O = OCCASIONAL-- Not observed annually, but a few individuals may occur some years in appropriate habitat and season; A = ACCIDENTAL-- Not expected and out of normal range (few records); I = IRREGULAR -- Abundance may vary greatly from year to year. (A range is given. Example: IW(R-C) = rare common winter visitant)

Status Codes: P = Permanent Resident (Found year round in the state); S = Summer Resident (Present in the state during the nesting season); W = Winter Visitant (Present in the state between December and February); T = Transient (Migrates through the state in spring and/or fall); I = Introduced (Viable population)

Utah County Birders 2016 Challenge

Insert a 1 in the lefthand column for each species recorded. The Total Score will be automatically calculated
